

 WORK EXPERIENCE

MOUNT LEBANON HOSPITAL UMC
MRI Technologist

April 2023 - present

- Perform a variety of MRI exams and procedures.
- Handle and administer gadolinium-based contrast agents.
- Ensure patient safety by implementing screening protocols and time management.
- Maintain MRI equipment through scheduled phantom testing and temperature control.
- Review patient cases and physician orders to determine optimal imaging protocols and parameters.

MOUNT LEBANON HOSPITAL UMC

October 2024 -
Present

Nuclear Medicine Technologist: PET-CT

- Perform various PET-CT scan exams and procedures.
- Handle and administer nuclear contrast agents (FDG, PSMA) following radioprotection guidelines.
- Implement patient safety protocols, education, and radioprotection standards.

MOUNT LEBANON HOSPITAL UMC

February 2016 - April
2023

Radiology technologist: CT-scan, x-ray, and interventional radiology

- Perform specialized CT procedures, including biopsies, angiographies, and vascular studies.
- Conduct interventional radiology procedures such as nephrostomies, PIC-line insertions, and osteoarticular injections.
- Carry out a variety of X-ray and CT scan procedures while adhering to patient safety, education, and radiation protection protocols.
- Apply ALARA principles and ensure compliance with radiation protection regulations.
- Proficient in using PACS and RIS systems.
- Extensive experience in handling different types of contrast media.

 EDUCATION

AMERICAN UNIVERSITY OF SCIENCE AND TECHNOLOGY (BEIRUT)
MS in Biotechnology: DNA technologies Emphasis in medical imaging

October 2018 - July
2020

specialized in CT and MRI imaging

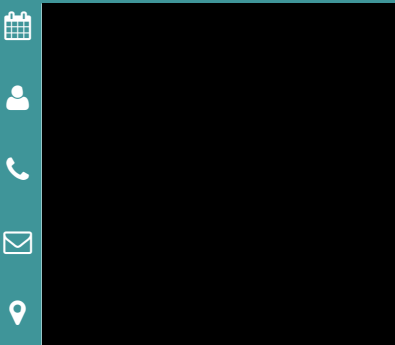

AMERICAN UNIVERSITY OF SCIENCE AND TECHNOLOGY (BEIRUT)
BS in Radiological science

October 20104 -
February 2017

Rayan A

Radiology Technologist

SKILLS

- Patient empathy
- time management
- team work
- radiation protection awareness
- work under pressure
- strong work ethic
- multitasking
- positive attitude
- flexibility
- computer competency
