

NASSIB

Registered Nurse | Emergency & Home Care Specialist

LinkedIn

Professional Summary

Registered Nurse with 10+ years of critical care experience across emergency departments, COVID-19 units, and home-based patient care. Skilled in rapid triage, IV insertion, airway management, and post-acute monitoring, with a strong foundation in emergency response and medical dispatch.

Delivers safe, efficient, and compassionate care in high-pressure environments, while collaborating closely with physicians, families, and multidisciplinary teams. Committed to evidence-based practice, patient advocacy, and continuous clinical growth through advanced certifications in life support and airway management.

Core Competencies

• Emergency & Trauma Nursing • COVID-19 Critical Care • Home-Based Patient Care • Rapid Triage & Assessment • IV Therapy & Wound Management • Interdisciplinary Team Collaboration • Medical Supply Coordination • Patient Advocacy & Family Education • Airway & Medication Administration • Infection Control & Sterile Technique • Medical Documentation & Reporting

Experience

Cymedic, Jal el Dib - Lebanon

Medical Product Specialist – Surgical Supplies | July 2025 – Present

- Manage surgical supply inventory, ensuring timely preparation of materials for procedures.
- Coordinate with OR technicians to fulfill operational needs.
- Maintain logs for inputs/outputs via InPlan system and oversee expiration tracking.
- Produce reports on soon-to-expire items, reducing waste and maintaining compliance.

Hi-Tech Gates, Jdeideh - Lebanon

Medical Product Specialist – Surgical Supplies | November 2024 – April 2025

- Oversaw procurement, stocking, and inventory tracking for surgical departments.
- Collaborated with medical teams to ensure readiness of tools and supplies.
- Recorded material usage and generated expiry reports to optimize stock rotation.
- Ensured consistent availability of surgical kits and emergency items.

Saint George Hospital University Medical Center, Achrafieh, Beirut - Lebanon

Registered Nurse – Emergency Department & COVID-19 Unit | March 2019 – November 2024

- Performed comprehensive assessments and implemented individualized care plans for patients.
- Administered medications, treatments, and emergency interventions including IV insertion, wound care, and airway management.
- Educated patients and families on health management, medications, and post-discharge care.
- Documented clinical procedures and patient progress with precision and confidentiality.
- Collaborated with physicians and multidisciplinary teams to improve patient outcomes.
- Advocated for patients' rights, dignity, and safety in every step of care.
- Took on administrative duties such as shift handovers, supply tracking, and mentorship of junior staff

Practical Nurse – Emergency Department | August 2017 – February 2019

- Assisted in monitoring and evaluating patient condition, ensuring timely escalation when necessary.
- Recorded vital signs, symptoms, and patient history with accuracy.
- Delivered direct care: hygiene, mobility support, wound dressing, and medication administration.
- Participated in care planning with families and senior staff to ensure holistic support.

Home Care Nurse – Freelance

Ongoing, On-Call, Choueifat & Nearby Areas, Lebanon | October 2019 – Present

- Assisting with prescribed medications and ensuring adherence to treatment plans as directed by physicians.
- Maintaining sterile environments and strict adherence to infection control.
- Providing IV therapy, wound management, and professional dressing care.
- Educating patients and family members on care routines, hygiene practices, and post-treatment instructions.

Trad Hospital, Hamra, Beirut - Lebanon

Practical Nurse – Operating Room & CSSD | October 2015 – January 2017

- Supported surgical teams by preparing instruments and equipment for procedures.
- Assisted with patient positioning before surgical procedures to ensure proper access and patient safety.
- Maintained sterile environments and strict adherence to infection control.
- Ensured accurate documentation and smooth workflow across the operating suite.

Lebanese Red Cross, Beirut - Lebanon

COVID-19 Vaccination Project – RN Volunteer | Early 2021

- Participated in Lebanon's national COVID-19 vaccination campaign, focused on administering the **Pfizer-BioNTech vaccine**.
- Carried out patient screening, vaccine preparation, and intramuscular administration under strict cold chain and safety protocols.
- Monitored patients post-vaccination for adverse reactions and reported findings according to Ministry of Public Health guidelines.

First Aid & Emergency Response Volunteer and Dispatcher | 2006 – 2016

- Delivered immediate first aid and stabilized patients in diverse emergency scenarios, including trauma, natural disasters, and mass casualty events.
- Served in the **Emergency Medical Dispatch Center**, fielding urgent calls and deploying the nearest response units with accuracy and speed.
- Provided crisis support to patients and families, demonstrating empathy and calm in high-stress situations.
- Participated in extensive training programs on **CPR, triage, EMT protocols**, and pre-hospital care through national and international organizations.
- Assisted in disaster relief operations, coordinated with emergency teams, and upheld humanitarian principles during field response.
- Maintained constant readiness through simulations, drills, and field operations in collaboration with medical and logistical units.
