Personal summary

After graduating from MUBS in business, I started my career in Blom Bank in Lebanon (acquired HSBC) as a trainee, and then worked in the credit and information department for two years. I was one of many people laid off during the pandemic and financial crisis in Lebanon. In 2021, I took a very demanding job in Ain W Zain hospital in the admissions section for the emergency unit. After that in 2022, I started a very good and new position in AUBMC in the finance and control department as a cashier for the emergency unit. As I lost my father in a car accident at a young age, I had to take responsibility, learn to adapt, and work very hard to support my mother and younger brother. I am looking for work outside Lebanon to be able to survive this juncture in Lebanon.

Experience

2022. **Front-liner, Emergency Cashier**
AUBMC Hospital, Hamra Lebanon

- Discharge patient from hospital and ER by giving them clearance
 - Conduct basic accounting duties
 - Communicate with insurance to facilitate the process of the patient in ED
